

# Sample MedRight Scheduling Screens

NOTE: These sample screens are from the Nursing Home version of MedRight. The Home Care and Phlebotomy Agency versions 'look & feel' like the Nursing Home version's but include information fields and reporting features designed specifically for those markets

## Patient Entry Screens

MedRight Nursing Home Scheduling Version 4.03.19

## Typical Report Screens

Various sort & selection options allow reports to be tailored to your needs

Preview reports on screen or print to printer

Specialized reports can be quickly added to your MedRight system

Key reports include:

- Scheduled Requisitions
- Draw Lists & Phlebotomy Logs by day
- Expiring Order Reinstatement Letters to Physicians
- Test Summaries showing all scheduled testing for a patient
- Patient Requisitions for stat or 1-time orders
- Draw Summaries by client or (for Home Care) by phlebotomy route

## Main Menu

Easy to read & intuitive grouping of menu options - perfect for part-time staff

Access to options can be controlled by user passwords
